

POTENTIAL OHIO AMNESIA VICTIMS, 1948-53

	Name	Age when disappeared	Hometown	Time of disappearance	How disappeared	Outcome
?	Roger P. Robinson	18	Cincinnati, OH	February 1949	He disappeared from Vineland School in Pueblo, CO. He wound up four days later in St. Louis, MO.	His parents picked him up in St. Louis. After he was found, his father told police that he "believed his son was suffering from amnesia."
X	David H. Long, Jr.	15	Urbana, OH	"several months" before May 1949	Had argument with parents because he wanted to drop out of school, then he disappeared. His father thought that a person with amnesia he'd heard about on the radio might be his son.	He never returned home.
?	Rita Sater	17	Lancaster, OH	April 1949	She was living in Columbus, OH, while attending high school. One day, she left for school, but turned up at her mother's home in Lancaster early the next morning. Then she disappeared again. Her mother mentioned she'd been in an accident recently and suggested it was probably amnesia.	She got married two months later, so perhaps her disappearance had something to do with that.
X	Milton Specter	27	Cincinnati, OH	July 1949	Had just returned from business trip to Chicago and seemed stressed. His parents thought the stress caused amnesia.	His body was found in November 1949 by three young boys who were hunting. He'd committed suicide by shooting himself.
?	George Clark	23	Columbus, OH	October 1949	He was being held in Miami Valley Hospital for amnesia. His conversation was described as "irrational."	Unknown—no update available.
X	Richard Cox	21	Mansfield, OH	January 1950	He disappeared from West Point Military Academy. He was last seen going to dinner with a mysterious man he knew from the Army who called himself George. His mother thought he had amnesia.	Never returned. He was declared by the state of Ohio to be legally dead in 1957.
X	"Mary X"	26	Mohrsville, PA (found in East Liverpool, OH)	September 1950	She'd been wandering around the road near East Liverpool's city limits and claimed not to remember her name or where she came from. She was taken to the local hospital and was being treated for amnesia.	It was all a hoax. Her name was Mary Burgess Zeiber and she was running away from her husband.
?	Pasquale Angelone	22	Cleveland, OH	August 1951	His rowboat was found empty and bloodstained at Oakwood Beach, in Rocky River, OH.	He turned up in Akron shortly thereafter, and blamed the episode on amnesia. The bloodstain was from a nosebleed, he said.

POTENTIAL OHIO AMNESIA VICTIMS, 1948-53

?	James W. Cumley	26	Athens, OH	February 1952	He was a collector for a finance company who was traveling on business to Marietta, OH, and later, to his fiancé's home in Belpre, OH. He was reported missing after he didn't make either destination.	He was discovered in Oklahoma City 36 hours later. Authorities determined that he was "apparently a victim of temporary amnesia."
?	Robert Julian Hatch	27	Cleveland, OH	February 1952	He was a WWII veteran who left home one day and didn't return. His family heard that a man "answering his description" was living and working in Brunswick, OH. The article stated that he was "believed to be an amnesia victim."	Unknown—no update available, although he must have been located. He is recorded as having died on April 6, 1999, in Cleveland.
?	Richard Resseger	19	Mogadore, OH	Summer 1952	He was a former Kent State student who enlisted in the Air Force in January 1952 and was assigned to Sampson Air Force Base in NY. Sometime afterward (roughly 6 months before he was found), he disappeared. In January 1953, he was spotted walking near Hinesville, GA, in garb traditionally worn by individuals living in a friary at Saranac Lake, NY.	He was given sodium amytal (truth serum), and that's when he remembered who he was. His delighted parents picked him up in Georgia.
