

The settlement agreement asserts that I am not able to request the same information that I'd been seeking through the lawsuit. I will state this plainly: I DID NOT SEEK THE RICHARD COX FILES IN THE LAWSUIT AND THEY WERE NOT PART OF THE SETTLEMENT. I sought documents pertaining to Ronald Tammen in the lawsuit. I sought the Richard Cox files through a separate FOIA request. I now see that Ms. Whitaker was not stepping in to help with my Richard Cox FOIA request out of the goodness of her heart. She was attempting to fabricate leverage, sending a raft of documents on a separate matter that I should have received in 2011. To play these games makes a sham of the FOIA process, and showcases how derisively the FBI treats ordinary taxpaying citizens who are trying to seek the truth. It certainly makes this ordinary taxpaying citizen wonder what it is the FBI doesn't want me to see.
