Dear Ron:-

We have been waiting more or less to hear from you, but realize that you must be extremely busy not only with your studies, but also with your other activities:- such as, Counselor and the Owls.

Mom picked up your checks today so we thought we would forward them as quickly as possible so you could get your "Savings Account" started. We are going along with you on this deal as we feel you are old enough and should have the experience of handling your own money. We hope you will be wise and remember that practically all of it will have to be used for next semester.

I am retaining your check stubs for your tax purposes, but will put down exactly what the stub shows
